## LOOK FOR LIQUOR ON GUARDSMAN AND FIND GOOSE

Trainload of Soldiers From Nebraska Stop at Alamogordo on Way to Deming; Each Man Was Searched.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Alamogordo, N. M., Sept. 18.—A trainload of national guardsmen from Nebraska passed through Alamogordo Monday for Deming where they will go into training at Camp Cody. While the train was stopped in Alamogordo a number of the soldiers strolled about the streets and spent some of their time in Alameda park, which lies alongside of the station. As each soldier boarded the train after his return his person was searched by officers, presumably for intoxicating liquors. One of the soldiers caught a big tame goose in Alameda park, which he smuggled into his car. An officer found him shortly afterward with the goose in his possession and ordered him to put the goose back in the park, which was promptly done.

Fred H. Goldammer has returned from Michigan where he went on a visit before being drafted into the national army. He is one of the allotment of nineteen Otero county men who will leave for Camp Funston, Fort Riley, Kansas, on Friday, Sept. 21.

Harry K. Work, of Orogrande, on Monday received 40 head of cows and heifers which he recently bought from Jack Messer, of Alamogordo. He will take the cows to Orogrande where he will put them on the range in the Jarilla mountains.

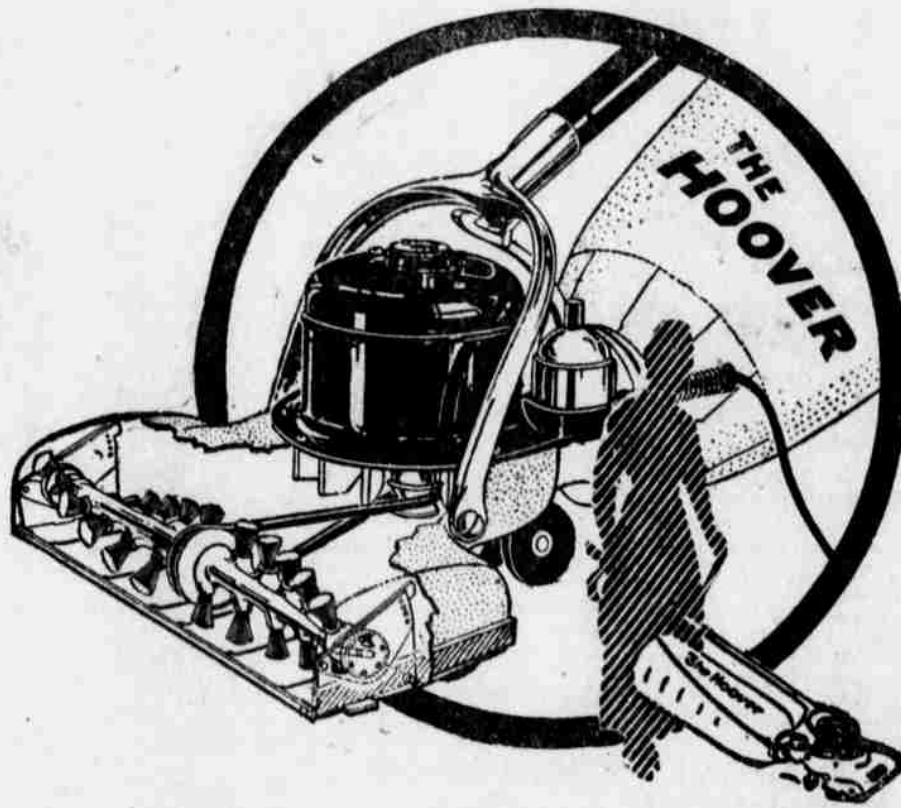

Charles E. Mitchell, president of the Alamo State bank, and B. F. Pearson, president of the Peoples State bank, have returned from the meeting of the state bankers' association at Las Vegas. Mr. Mitchell stopped over in Santa Fe and El Paso on his return to Alamogordo.

H. E. Carter, of White Deer, Carson county, Tex., is in Alamogordo in connection with the location of a number of oil claims for Texas parties in the Twin Butte oil and gas district. Mr. Carter recently removed with his family to White Deer from Alamogordo and is engaged in the real estate business at that place. He has located several hundred persons on oil claims in the Sacramento valley and the locations include many sections of land.

Argentina Recognizes Slav Republic.

Buenos Aires, Sept. 18.—Argentina has recognized the new republic of Russia. President Irigoyen today signed a decree to that effect.

## MUCH ACTIVITY IN MINES SINCE RISE IN SILVER

More Men Working at the Kingston Mines Than at Any Time Within Twenty Years; Everything Is Humming.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Hillsboro, N. M., Sept. 18.—Practically the entire county of Sierra was visited yesterday and today with heavy rains. Stock raisers who were planning the shipment of considerable livestock to ranges in other states, now feel that this will not be necessary. Approximately 5,000 head of cattle and sheep have already been shipped out of the county by reason of the continued dry weather, the largest shipments going to California and Arizona ranges.

Much mining activity is in evidence since the advance in the price of silver and it is conservatively predicted that the principal silver producers of this county will soon be worked again. At the present time there are more men working at the Kingston mines than at any time within twenty years. Some of the Lake valley properties are now being worked and a good grade of silver ore shipped. In these two camps, fifty or more men are at work in the silver mines. Negotiations are pending for a number of leases on old dumps and it appears reasonably certain that, so soon as mine owners are convinced that the price of silver will remain high, mining in this section of the state will be resumed upon a rather extensive scale.

**Schools Open.**  
The public schools of the county have opened, under the direction of capable teachers and with a good attendance. Col. James P. Parker, the county superintendent, has given his time and attention to educational matters for several years and this year's work of the schools will undoubtedly show advancement. Sierra county is one of the few counties of the state without high school facilities, but it is expected that this actual educational need will be met soon, as the county's two predominating industries, mining and cattle raising, grow in importance. Hillsboro has a com-

modious public school building, and with small expenses, sufficient accommodation could be had for the pupils of the county who have completed the elementary grades successfully.

**To Build New Depot.**  
Material is on the ground at Nutt for the building of a new depot and agent's residence. A box car has been used by the Santa Fe at this point since the burning of the station house some time ago. This improvement will greatly facilitate the handling of freight for the people of Lake valley and Hillsboro.

Hon. Alvan N. White arrived here the middle of the past week and has entered into a law partnership with Hon. Edward D. Tiltman, who has his headquarters as attorney for the Pueblo Indians at Albuquerque. Mr. White will also have the direction of the editorial policy of the Sierra Free Press, a democratic weekly. His family, now in Santa Fe, will join him here as soon as he finds a suitable residence. Mr. White retired from the office of state superintendent of public instruction January last, since which time he has been practicing law in Santa Fe. Prior to his term as state superintendent he practiced law at Silver City for several years.

**Secures Miners for Gallup.**  
Considerable interest in baseball this summer here and at Hot Springs has resulted in several warm contests. Arrangements are now under way for perhaps the biggest game of the season to take place on the Hot Springs grounds next Sunday. Some professional players will play on each side.

Buck Williams of Santa Rita, a representative of the Gallup-American company, has secured about fifteen miners for the Gallup district, who leave here today for that camp.

The Ladder Cattle company shipped in here last week 200 head of the finest blooded cattle yet seen in this county. The cattle outfits have, as a rule, thoroughbred cattle now, which probably makes this section the leader of all places in the state for good cattle.

**Crops Excellent.**  
County Clerk P. S. Kelly, Neil Sullivan and Attorney Alvan N. White have returned from a business trip down the river as far as Dairy. They report crops along the river in excellent condition. The government has a force of some sixty men camped on the river near Dairy, where a large diversion dam is being built. The new steel bridge across the river near this point is to be raised some three feet and the approaches repaired by the reclamation force, before it leaves this section. With but few exceptions the roads of the county are in very fair condition.

## ASKS OIL MEN TO GIVE SUGGESTIONS FOR LAW

(Associated Press Correspondence.) Mexico City, Sept. 18.—As the new constitution materially changes conditions in the Mexican oil fields the department of commerce and industry has invited all oil companies and individuals whose interests are affected to confer with the department and submit suggestions for the organic law on which regulations of oil and oil lands will be based. The department has sent a technical commission to the Tampico fields to study the situation on the ground.

## WOULD IMPRESS U. S. WITH THEIR SINCERITY

(Associated Press Correspondence.) Osaka, Sept. 18.—The Osaka Mainichi welcomes the news that the Japanese house of representatives will send five delegates to the United States for the purpose of studying conditions and cementing relations between America and Japan. The dispatch of these five delegates, the newspaper thinks, coupled with Viscount Ishii's mission to Washington, cannot fail to impress Americans with Japan's sincerity and true friendship towards the great republic.

## MEMBERS OF STATE BAR ASSOCIATION HOLD ANNUAL MEET

(SPECIAL DISPATCH TO MORNING JOURNAL) Roswell, N. M., Sept. 18.—About fifty visitors have arrived for the annual meeting of the New Mexico Bar association, and more are expected tonight and tomorrow. The sessions opened this morning with an address of welcome by Judge G. A. Richardson. The response was made by Judge Lorin C. Collins of Santa Fe. The remainder of the business session was occupied with the appointment of committees and disposal of routine business. A reception will be given tonight at the Gilder hotel for the visitors by the members of the local bar association and the citizens of Roswell.

**A Valuable Health Hint.**  
If the bowels are not working regularly, undigested food in the stomach may set up a condition of auto-intoxication and pollute the whole system with poisons in the blood stream. Foley Cathartic Tablets keep the bowels open and regular, the liver active and the stomach sweet. They cause no pain, nausea nor griping. They relieve indigestion, sick headache, biliousness, sour stomach, bad breath or other conditions caused by clogged bowels. For sale by Royal Drug Co.

## Young Men! THE FALL STYLES ARE HERE

You young men who have not been called to the colors will be relied upon to keep business, industrial pursuits and prosperity humming faster than ever.

Every man should appear at his best to keep the morale of the country up to the highest pitch.

## KUPPENHEIMER CLOTHES

for Fall have been designed to help you do it. They express the aggressive, confident spirit of the times.

We invite you to come in, look over and try on the new styles. You will like the colors and weaves—strictly up to the standards The House of Kuppenheimer has maintained for years.
